

SMITA JADHAV

Fullstack Developer

☎ +91-8010352996 ✉ jadhavsmita841@gmail.com 🔗 <https://www.linkedin.com/in/smita2411>

Summary

MCA student and aspiring Fullstack Developer with hands-on experience in full-stack web development using React.js, Node.js, Java, MongoDB, MySQL, PHP, JavaScript, HTML5, CSS3, and Java. Experienced in developing applications with user authentication, CRUD operations, search and filtering, responsive interfaces, image handling, and database integration. Strong interest in building scalable and user-friendly software solutions.

Education

Master of Computer Applications **2026 – Present**
Shivaji University, Satara

B.Sc. Computer Science **Graduated – 2026**
KBP University, Satara *CGPA: 9.36 / 10*

Technical Skills

Frontend: HTML5, CSS3, React.js
Backend: Node.js
Database: MongoDB, MySQL
Languages: Java, JavaScript, PHP
Tools: Git, GitHub

Projects

Personal Travel Diary | *MERN Stack*

- Developed a full-stack travel diary application enabling users to create, edit, delete, and manage personal travel stories with photos.
- Implemented JWT-based authentication and CRUD functionality with MongoDB for secure travel story management.
- Built a responsive React.js and Tailwind CSS interface with search, filtering, favourites, and image upload features.
- **Tech Stack:** React.js, Node.js, MongoDB, JavaScript
- **GitHub:** https://github.com/smita-2411/personal_travel_diary_web.git
- **Live:** <https://personal-travel-diary-web-frontend-74qf.onrender.com>

Explore City | *Web Application*

- Built a city guide web application helping users discover tourist attractions, restaurants, hotels, and local points of interest.
- Designed a normalized MySQL database and implemented backend functionality using PHP for efficient data retrieval.
- Developed the frontend using HTML5, CSS3, and JavaScript with a responsive and user-friendly interface.
- **Tech Stack:** HTML5, CSS3, JavaScript, PHP, MySQL
- **GitHub:** <https://github.com/smita-2411/Explore-city-.git>
- **Live:** <https://database.liveblog365.com/>

Bank Management System | *Java Desktop Application*

- Developed a desktop-based banking system supporting account creation, deposits, withdrawals, and balance inquiries.
- Implemented CRUD operations using JDBC and MySQL to manage customer and transaction data.
- Designed a Java Swing GUI for intuitive navigation across banking operations.
- **Tech Stack:** Java, Java Swing, JDBC, MySQL
- **GitHub:** <https://github.com/smita-2411/Bank-management-system.git>

Internship & Certifications

- **IBM SkillBuild Internship Certificate (2025):** Completed practical case studies and gained exposure to industry-oriented technical concepts and problem-solving approaches.
- **The Entrepreneurship Network Internship (2026):** practical case studies and gained exposure to entrepreneurship, business development, and professional skills.
